

Dear Public Access Producer:

The City of Chula Vista is pleased to inform you about the establishment of an agreement with the San Diego County Office of Education to provide new opportunities for public access programming playback. As you may be aware, Cox is no longer supporting public access in our community. Starting now, public access producers can submit programming to SDCOE at the following address:

San Diego County Office of Education
Community Access TV Coordinator
6401 Linda Vista Road, Room 102
San Diego, CA 92111

A completed Public Access Producer's Agreement (attached) is required to be provided for each program submitted to the public access office.

Producers can contact SDCOE during drop-off hours at (858) 292-3741 for additional information or to confirm/coordinate the delivery of programming.

The City is pleased to support this new era of public access programming in our community. In the near future, SDCOE will be exploring new ways to expand public access outreach and to provide additional community programming services.

Thank you for your continued interest in supporting community-based programming.

Sincerely,
